PROJECT Part BONUS

(can be used to replace any part from 1 to 10)

Question 1: (use script 7clearwater)

Create a view containing item description, item_id, price, color, inventory_id, size of all the inventory of clearwater database.

Can we UPDATE, INSERT directly TO the view? If NOT, can you provide a solution?

Question 2: (use script 7northwoods) Create a view containing course name, credit, student name, c_sec_id, SEC NUM, grade of all course section taken by a student.

Can we UPDATE, INSERT directly TO the view?

If NOT, can you provide a solution?
